Website Check

Ensure Your Establishment's Website Meets Regulation Requirements

Maintaining a compliant website is crucial for educational establishments to ensure transparency, meet regulatory requirements, and provide necessary information to parents, pupils, and the community. A compliant website:

Meets Legal Obligations: Ensures all statutory information is correctly displayed.

Enhances Transparency: Builds trust by providing clear and accessible information.

Supports Inspections: Facilitates smoother inspections by ensuring all required documentation is readily available.

Website Check - Process

Documentation Audit:

Statutory Requirements: We review your website to ensure all mandatory information is present, including statutory policies, performance data, and curriculum details.

Policies:

Verification that all statutory policies are up-to-date and correctly published.

Governance Information: Ensuring details about Governors and their roles are accurately displayed.

Financial Information:

Checking that financial reports and funding allocations, including Pupil Premium, PE/Sport Premium and Music Strategy statements are correctly published.

User-Friendly Presentation:

Ease of Navigation: Assessing whether key information is easy to find for parents, Inspectors, and other stakeholders.

GIAS (Get Information About Schools) Check

Ensuring your establishment's GIAS records are accurate and up-to-date is essential for compliance and effective communication with the Department for Education.

As an independent specialist, ComplyEd brings expertise and thoroughness. We will meticulously review all required fields, including governance details, ensuring compliance with DfE guidelines, The Education Act 1996 and the Academies Trust Handbook (ATH).

By entrusting ComplyEd with this critical task, your establishment can focus on its core mission of delivering high-quality education while maintaining confidence in its regulatory standing.

GIAS (Get Information About Schools) Check - Process

Data Collection:

Gather all necessary governance information from your establishment's records, including governance structures, contact details and terms of office.

Verification of Information:

ComplyEd verifies the accuracy and completeness of the collected data against current records and will identify any discrepancies or missing information that needs to be updated.

Compliance Review:

Cross-check the gathered data with statutory requirements outlined in DfE guidelines, The Education Act 1996 and the Academies Trust Handbook (ATH).

Reporting:

Provide a comprehensive report to you detailing any issues found and any updates or amendments required.

Digital Reputation Check

Digital Reputation: Managing your establishment's digital reputation is crucial as it shapes public perception. The internet, now an indispensable part of our daily lives, has transformed interactions and left behind vast digital footprints. With the dynamic rise of social media, consumers' opinions have become a significant factor in shaping reputations.

Manage your establishment's image: With ComplyEd's digital reputation checks, you can proactively manage your establishment's image, ensure compliance with safeguarding requirements and ensure that your establishment's digital image reflects the high standards and values of your educational community.

Help with recruitment: Digital reputation management is not just about maintaining a positive image, it can also affect recruitment by impacting how your establishment is perceived. A negative reputation can drive away potential employees, making it challenging to attract the right talent. Positive online reviews and testimonial can help to increase the number of high quality candidates applying to work with you.

Digital Reputation Check - Process

Digital Checks:

Our expert team will monitor online content, reviews, and social media mentions related to your establishment.

Report:

Following each review, we will provide you with a full report of any factual changes we have requested on your behalf (i.e. incorrect address/contact details) as well as details of any detrimental comments made in relation to your establishment to enable you to consider any necessary actions you may wish to take.
